1. Organization overview

A Women community initiative for and by women living with HIV/AIDS, for care and support services with a special focus on women and children infected and affected by HIV/AIDS

Cheyutha WCBO, meaning, “helping hand” in Telugu, was established in 2005 with the support of our mother organization LEPRASociety in Hyderabad. The Women’s Community-Based organization (WCBO) is a women’s community initiative for and by women living with HIV/AIDS, for care and support services with a special focus on women and children infected and affected by HIV/AIDS. Cheyutha WCBO has been rendering various care and support services such as counselling; referrals to Antiretroviral Treatment (ART), free treatment for opportunistic infections (OLS); foster care for orphan & semi orphan children; educational support to infected and affected children; taking up legal issues and fighting for the rights of the deprived and vulnerable women, with a special focus on empowering women to lead dignified lives. After a successful association with Cheyutha WCBO since 2005, LEPRASociety decided to transfer the project management to the WCBO in 2011. In 2016, Cheyutha WCBO and LEPRASociety signed an MOU whereby the WCBO became an independent body. *Cheyutha WCBO is a one stop service hub and offers comprehensive services. We have so far benefited a total of 2099 women through its services.*

Our Vision

To improve the quality of life of HIV/AIDS infected/affected individuals and their families.

Our Mission

To provide better care, support and treatment for HIV/AIDS infected and affected individuals. We thrive to build a society where people with HIV/AIDS face no discrimination, enjoy equal rights and lead a meaningful life.

Where do we operate

We are based in and around Hyderabad and Ranga Reddy District, Telangana. We are committed to our vision and are continuously working to get really close to our mission statement. We're not alone, alongside us are partner organizations, generous donors and CSR partners and more importantly our members themselves who despite being HIV/AIDS Infected/Affected are striving to keep our hopes and spirits high. We are grateful to be working alongside you this year and into the future.

2. Message from the Founder

I am very happy and honoured to present our Annual Report for the financial year 2021-22. I am pleased to share our experiences, the challenges we faced and how we overcame them.

While addressing the challenges faced by HIV infected people is in itself a huge task, identifying and enrolling right staff and volunteers in this journey is also important. The past 2 years was extremely challenging for Cheyutha WCBO. Some of our Community members were impacted by COVID, some of them even lost their family members. Our Community members come from below poverty line and lower middle class. Many of them lost their daily wage jobs due to Covid situation and had difficulty in getting two square meals per day. We thank Azim Premji Foundation, ADP, Value Labs and other donors who provided help to our community members in the form of dry ration kits & medicines. We were also able to provide educational support like paying fees for children of our community members. We were just returning back to normalcy, when the global oil crisis emerged due to Russia-Ukraine war. Drastic increase in petrol, oil and LPG prices is impacting the daily life of our Community members as they are unable to earn profit in their small business ventures. At a time when lower middle class families are facing day to day challenges, we can imagine the plight of Community members who happen to be HIV infected people. They are facing mental and health issues. This requires a lot of resource mobilization from our side. We have started developing volunteering model by giving basic training and many of our volunteers are less literate. Therefore, to build their morale and help them develop into second line leaders, we regularly conduct training programmes.

We earnestly require an increasing level of support from existing partners and donors and at the same time would like to associate with new partners and donors. This will enable us to serve more HIV Infected people and also help us in providing them with more sustainable support like helping them set up petty businesses and acquire new skills, etc.

I would like to share below the new project details. Cheyutha WCBO is a community based organization operating in partnership with civil society, government and communities to support sustained responses to HIV in India that protect rights and improve health. Complementing the Indian national programme, we build capacity, provide technical support and advocate to strengthen the delivery of effective, innovative, community-based HIV programmes to vulnerable populations affected by the Pandemic.

Every year we grew, sometimes fine tuned, or scaled down our ideas and approaches based on the lived experiences of people we serve. Over the last few years we have seen them actively shape, participate in, or even run some of these program. Our inclusive community-living projects are a prime example of this and you can read more about it later in the report.

I would personally like to thank our Partners and Donors : Azim Premji Foundation, Accelerate YRG CARE, ADP Pvt. Ltd., CSR, Value Labs CSR, Change Foundation, Indian Red Cross Society, Telangana State AIDS Control Society, our mother organization LEpra Society, Mrs. Mekhala, Deputy Director TSACS, Badri Vishal Pitti, Rising Star, Dr. Ranganadha Rao - WHO, Trisara Investments LLP (Mr. Sashidhar Reddy), Mr. & Mrs. Sunil Gummala, Sathya Sai devotee, Mr. Vamshi Krishna, Mrs. Unnati, Mrs. T. Mala Thyagarajan, Mrs. Nanda from RRF, Joy Group (St. Marks 1992 batch) for their generous support towards the medical expenses, grocery and education. This support of theirs has made a big difference to our organization without which we wouldn't have been able to conduct support activities. Their kindness, generosity, compassion, time and effort has bought an immense change in the life of many individuals. This year we have been able to support 574 adults which includes 117 children.

Thank you for believing in our vision and partnering with us to address distress and restore the hope, dignity and rights of some of the most marginalized and vulnerable. We look forward to the warm and kind support in the future as well to serve our community members.

Dry Ration Support during the Pandemic

3. Our areas of work

3.1 Health Care

“Communities and countries and ultimately the world are only as strong as the health of their women.”

Counselling

Cheyutha WCBO members receiving counselling and registration at the clinic.

Counselling is part of a holistic approach to the patient's overall health care. Cheyutha WCBO has long served as a hub for the HIV/AIDS workforce and community to come together, learn and share. We believe that right counselling gives people the information and life skills they need to make decisions about their future and proper guidance motivates people to lead a positive life. We provide different kinds of counselling like one to one counselling, Partner counselling , Family counselling , counselling during home visits.

HIV/AIDS Infected/Affected people need psycho-social support as they often suffer psychological stress due to fear of rejection, social stigma and disease progression and the uncertainties associated with future management of HIV/AIDS. They also need proper nutrition. This has been identified as an important component parallel to treatment (both ART and treatment for opportunistic infections). At Cheyutha WCBO, we identified that prevention of HIV transmission counselling is vital. The spread of HIV/AIDS can only be prevented by change in behavior. The peer counselling sessions have proved beneficial to the members as our peer counselors are trained to understand , listen and interpret the challenges faced by members.

Members are given counselling on a regular basis regarding the opportunistic infections, ART treatment and low cost nutrition. Our focus on counselling on the importance of regular medication ensured that 574 members are on ART treatment. 302/574 visited WCBO regularly every month, 157/574 members have visited WCBO at least 3 times in 2021-2022. Total 459 members have availed clinical services. The remaining 115/574 have been provided with various services other than clinical.

Clinical Consultancy

Cheyutha WCBO member Mrs. Savitha receiving free medicines.

Mrs. Veni receiving sanitary napkins. Program supported by Sathya Sai devotee

Cheyutha WCBO enrolls people living with HIV to access clinical services for Opportunistic infections (illnesses that occur more frequently and are seasonal. Such infections are more severe in people with HIV as they have a low immunity system). We conduct free weekly clinics to our members and monitor their CD4 count and Viral Load Test. This CD4 count is used to check the health of the immune system in people infected with HIV. The treatment for HIV is called antiretroviral treatment (ART). ART involves taking a combination of HIV medicines every day and helps people with HIV live longer and healthier lives.

We counsel ART defaulters to continue ART treatment. We refer defaulter cases to a counselor at government ART Centres. Some of the services are duly referred to the respective departments of medical college hospitals. The patients are accompanied by Cheyutha WCBO District Outreach Officer, counseled and also provided necessary support.

In 2021-22, we conducted 50 clinics and follow up attendees were 1355 members. New enrollments were around 105.

Referral service

Where required, we provide Referral services to ART Centres, Care and Support centre, legal service authority, hostel admissions and support them for social entitlement.

Nutrition Support

Support group members receiving nutrition support and the same is supported by Mrs.Sujata,mother of Mr.Sandeep Mohra,Advisory Board Member.

We have been able to extend nutrition support to 574 members who are chosen based on factors like their health condition, below poverty line (BPL) status, widows, single parents, orphan and semi orphan children, low CD4 count, etc. Nutrition is very important for HIV members because they will take ART Medication on daily basis and they need food to increase their CD4 count. Our ration kit is aimed at increasing the CD4 count of infected members which includes rice, oil, two varieties of lentils, jaggery, peanuts, health drink, wheat flour, idly rava and Bombay rava.

Admissions and Sponsorship:

Sai (Name changed) was given admission in Divya Disha Hostel

7 children whose applications for government sponsorship was approved by Women and Child Welfare Department

It was just last year we got to know that there is a provision for government sponsorship for HIV/AIDS Infected & Affected, orphan and semi-orphan children, in the age group 5-18 years. We have applied for the government sponsorship for 42 children with the "Women and Child Welfare Department" at Hyderabad and Ranga Reddy Dist. Only 7 applications have been approved so far by "Ranga Reddy Women and Child Welfare Department" and the remaining are under process. These 7 children get a sponsorship of Rs.2000/- month from Women and Child Welfare Department. 2 children who were referred by ART Centres were given admissions to government hostels.

3.2 Foster Care

" We think sometimes that poverty is only being hungry, naked and homeless. The poverty of being unwanted, unloved and uncared for is the greatest poverty."Let us strive to make this world a better place for orphans in need.

Cheyutha WCBO supports initiatives for orphans and other vulnerable children in Hyderabad and Ranga Reddy district. In the past few years, the need for interventions has become more obvious as the number of orphans was increasing and the burden on the elderly had become acute and severe. Many are growing up with low self-esteem and little sense of security. Our immediate concern for these children was to provide support for their educational, physical, and psycho social distress. Some children who have lost either or both parents due to HIV/AIDS live with their guardians and grandparents.

59 Foster care children received nutrition kits every month from APPI, ADP and Value Labs.

Support provided by ADP for 44 Infected/Affected children.

Support provided by Value Labs for 15 foster care children.

3.3 Legal Services

“Injustice anywhere is a threat to justice everywhere.”

Cheyutha WCBO providing legal services

We at Cheyutha WCBO were fortunate to have found some kind secretary cum civil judges from Hyderabad and Ranga Reddy districts who genuinely help the needy. Over the years we have noticed that women and young girls are more vulnerable and are today, at a greatest risk and subjected to domestic violence. Most members of Cheyutha WCBO not only battle with HIV/AIDS but also fight against the discrimination and deprivation they face at their marital homes.

Cheyutha WCBO supports Women who are facing legal issues by documenting their case studies and approaching the free legal service authority, earlier they have registered few cases with legal service authority and the still cases are pending in the court. We express our heartfelt gratitude to Mr. Murali Mohan Senior Civil Judge/Secretary; Legal service authority Hyderabad District had immediately solved one of the members Ayesha Sana in the period of nine months. She got justice from her in-laws, thanks to Mrs. Sreedevi, Senior Civil judge/Secretary, Legal service authority, Ranga Reddy district in actively supporting the HIV Positive women of Cheyutha WCBO.

We have also been successful in filing 11 cases in court till date (new 5 cases and 6 old cases). (2/11) cases have been resolved and justice has been provided to the respective members. The remaining 9 cases are yet to be resolved.

3.4 Support Groups

"When women support each other, incredible things happen."

With positive women as its members, Cheyutha WCBO Support group members meet on the second Friday of every month. Their goal is to promote positive living and to develop communication skills for Women to address their issues. Regular Clinical checkups and group counselling on positive living are held. New information (if any) about HIV/AIDS and other diseases are disclosed. We encourage our members to become confident speakers and offer necessary voluntary services at Cheyutha WCBO. The membership fees of Rs.150 per annum gives a sense of belonging and results in not only accessing services but also boosts their confidence level. This also results in the members volunteering to help others and to participate in advocacy activities at our office premises.

While attending the support group they are provided Nutrition support (Peanuts ½ kg, jaggery ½ kg, Till ½ which will have calcium, protein, Iron) Women also motivated to save some Rs.100/- from their pension which is provided by the government widow pension and ART pension during the COVID time that saving amount helped them to pay their house rents and medical needs.

One of the Support Group meetings conducted @ Cheyutha WCBO.

In 2021-2022, 12 support group meetings were conducted. These meetings have become a success with the group growing from 50 to 90 members. They initiated Amruth Aahar saving one wrist full of hand rice daily and get them to the meeting and support the another member of the same, seeing this initiative other donors came forward to give dry ration to the community members.

Outreach activities:

Mrs. Jyothi, District Outreach Officer conducting support group meeting at ART Centre.

- Our district outreach officer refers new ART registrations, does ART follow ups and re-initiate the process if there any ART defaulters. We undertake enrollment of ART Pensions, referrals and testing at ICTC & PPTC. So far 1413 members were made aware on the positive living aspect.
- We also refer members to HIV/AIDS Care and support centres, provide legal services. We do home visits to check the treatment update, foster care, education support and visit government offices and NGOs for further support.

3.5 Advocacy

" When the whole world is silent, even one voice becomes powerful."

We approached district Collectors with a petition requesting allotment NACO (National AIDS Control organization) has signed Memorandum of Understanding with the Ministry of Housing & Urban Poverty Alleviation, Government of India, with the objective to reach out PLHIV and affected population with enhanced accessibility in the livelihood schemes and

programmes. This was signed to improve social protection to PLHIV and Most-at-risk Populations (MARPs) through existing schemes and programmes for urban employment, poverty alleviation and housing. Based on this information, we approached Hyderabad and Ranga Reddy authorities for houses for women living with HIV/AIDS. We received a response from the Ranga Reddy Collector. He ordered their respective Mandal Revenue Office (MRO) to process our requests made for the allotment of houses.

We sent 25 applications in Hyderabad District, 16 in Ranga Reddy District and 10 in Medchal District. Total-51 applications were sent for two bedroom houses and 4 members were allotted houses as of 2021-2022. Cheyutha WCBO also conducts advocacy through Event Programs by highlighting the issues of the HIV positive people.

3.6 Livelihood support - Jute Enterprise

" The empowered woman is powerful beyond measure."

The Jute enterprise was the brainchild of JOY Group to make Cheyutha WCBO self-reliant. The unit, started in 2016 has three machines, with ten women members including staff trained to make bags. The group continues to participate in exhibitions and also takes private orders. We had faced challenges in getting orders and conducting Exhibitions due to COVID pandemic in the last 2 years

Our sincere thanks to Joy Group, St. Marks High School 1992 Batch friend's came forward to support Cheyutha WCBO to establish the Unit. We are also thankful to Association of Lady Entrepreneurs of India (ALEAP) for training the members at the Cheyutha WCBO Jute Bag Making Enterprise, who primarily include single women widows. These women are trained in making different kinds of lunch bags, shopping bags, vegetable bags, folders, pouches etc, so that it will be an income generation for the Women and to the organization. For the sustainability of Jute enterprise, we are planning to develop jute bag manufacturing into a full time enterprise, so that we can generate more revenue and provide more work opportunities for our member. Sattva, FHI 360, Jan Sahas and Cheyutha WCBO Women's community Based organization have signed an MOU for the period Mar 2022 thru Sep 2022 (non Financial Agreement) for developing into sustainability jute enterprise.

Total earnings from sale of jute bags in 2021-2022: Rs.40,360.

3.7 Volunteers being developed as second line leadership

Developing second line leadership

At Cheyutha WCBO efforts are made to develop second line leadership. Youth below the age of 35 years were identified who can manage and run the organization with the help of mentors.

Youth Volunteers Workshop: This workshop was one of the initiatives conducted as part of APPI Project with their due support. *We built a 35 member volunteer team by providing them training in Volunteerism, Resource mobilization, branding of organization, event management and logistic support. These volunteers helped us in strengthening our organization.*

4. Our Current Projects

I) Organization development (in collaboration with APPI)

APPI has granted Cheyutha WBCO Rs 31,04,000 for the year 2021-2022. These funds were used by Cheyutha WCBO to ensure that sufficient process, man power, materials, systems are put in place to ensure that below objectives are met

Financial Strengthening - Cheyutha WCBO is financial stable in generating funds and managing expenses

Organizational Strengthening - Cheyutha WCBO is governed by strong policies, managed by efficient board members, advisory board members and staff

Programme Strengthening - Cheyutha WCBO is able to execute all its programmes effectively and independently

In this regard, Cheyutha WCBO is investing quality time in ensuring that the organization is able to adapt to the changing needs and technology (by developing the website). This might help us to reach out to more donors, well wishers and serve many needy and marginalized people.

Dr. M. R. Parthasarathy, Deputy Director, JHU, ACCELERATE Project, Telangana launching the website.

II) Organization development (Non financial project in collaboration with EPIC-FHI 360°)

Cheyutha WCBO in collaboration with LEPRASociety (EPIC-FHI 360° partner) attended training programmes conducted by EPIC. Programmes such as resource mobilization, Human resources, finance management, Governance, Image networking. Cheyutha WCBO received LCD screen and a projector from EPIC-FHI 360°.

III) ADP Pvt. Ltd., CSR Support - Financial AIDS for HIV/AIDS Infected and Affected children. As part of ADP annual celebrations - Joy of Giving & Month of Caring, employees from ADP Pvt Ltd have been visiting Cheyutha WCBO twice a year. Mr. Vamshi Krishna, Mrs. Unnati and their team members after listening to

the problems of the orphans, have adopted 7 HIV Infected & Affected families. They have been visiting our organization regularly once a month to interact and see the progress of these families. This regular visit of theirs made them aware of the issues faced by HIV Community people. They have been empathetic and very kind in discussing the same with Mrs. Sridevi, CSR - Program Manager- HR of ADP for further financial support. Since then, ADP has been supporting 44 children (22 infected & 22 affected) for tuition support, medicine and nutrition support (Rs. 11,21,670/-) for the year 2021-2022.

They have additionally been supplying Nutrition grocery twice a year. They also helped us by sponsoring grocery distribution to 104 members in June'21 and 122 members in November'21 and also distributed books, bags, lunch box, water bottles to 55 children.

ACCELERATE (Non financial project in collaboration with YRG Care)

The objective of the program, titled “ACCELERATE” is to assist the Government of India's National AIDS Program in achieving HIV epidemic control. This program's implementation partner in India is YRG Care and Cheyutha WCBO is associated with them for availing human resource support from 1st August 2021 to September 2022. AFHC (Adolescent Friendly Health Centre) has been set up at Cheyutha WCBO to provide services to Adolescent children who are virally unsuppressed and follow up with the suppressed children of the age group 10-17 years.

Services provided in AFHC Clinic : Services provided are related to regular health checkups, Mental Health, Nutrition monitoring, Enhanced Adherence counselling, NCD Screening and 4S screening. We have been providing medical, nutrition and educational support to the adolescence children and also planning to provide them with life skills training in the coming year.

Inauguration of AFHC Clinic :

Dr. Anna Prasanna, Additional Project Director, TSACS has inaugurated AFHC Clinic along with Dr. Parthasarathy from JHU, ACCELERATE & Dr. Subash from YRG Care.

5. Events

I) Education Support Program for Infected/Affected children - 6th Nov' 2021

Education support provided to 55 children.

The issue of HIV/AIDS Infected & Affected children is not only about access to treatment but also concerns other spectrum of children rights. Our core belief is that all HIV Infected, and Affected children should have right to education, gain economic independence to lead a good and healthy life. Cheyutha WCBO strongly believes in improving children's education. They either have a single parent or orphans.

Cheyutha WCBO also receives support from APPI,ADPPvt Ltd,Joy Group,Mr & Mrs. Usha Gummala,CHANGE Foundation,Indian Red Cross Society,LEPRA Society to provide better educational facilities. We have provided education support to about 55 children for the academic year 2021-2022. Many such children who have taken support are now working in different firms and supporting their families.

Chief Guest and other Guests of Honour @ Education Support Program

Program was graced by Mr. Prasant Naik, CEO LEPR Society, Mrs. Unnati, ADP Pvt. Ltd., Mrs. Sujata, mother of Mr. Sandeep Mohra, Advisory Board Member, Mr. Swamy Reddy, Monitoring & Evaluation officer, LEPR Society. The objective of the program was to create awareness among students by highlighting the importance of education. This was also an occasion for the sponsors to connect with the students, understand their challenges and help Cheyutha WCBO in their objective of improving the lives of students in the field of education.

Total members who attended the program : 139

I) World AIDS Day - 1st December 2021

Observation of World AIDS Day

Our sincere thanks to our Chief Guest Smt A. Sreedevi Senior Civil Judge/Secretary, Ranga Reddy District. Some of our members who are facing legal issues, got an opportunity to highlight their issues. Smt. A. Sreedevi immediately sought the assistance of Mr. Murali Mohan for speedy follow up in the court. She also requested Mrs. Vinoda, District Out Reach Officer of Cheyutha WCBO, to bring up any case to her staff, who will help them in documenting and filing the cases. She had taken contact numbers of 2 members, Mrs. Pushpa & Mrs. Bashamma, advised them to go to their concerned police station and give a call. Madam had personally spoken to the concerned in charge of the police station to get these cases registered. She assured us that she will speak to the district collector for 2BHK houses for the members who are very much in need of shelter.

Total members who attended the program :59

III) International Women's Day - 8th March 2022

"Gender Equality Today for a Sustainable Tomorrow."

International Women's Day celebrations

Cheyutha WCBO thank our Chief Guests Dr. Parthasarathy, Deputy Director, JHU, ACCELERATE Project, Telangana and Guests of Honour Mr. Madan Mohan, Secretary, Indian Red Cross Society (IRCS), Mr. Prasant Kumar Naik, CEO, LEPRASOCIETY, Mrs. Kavitha David, COO, UNICROIPS, Mrs. Jayaprada, Pallavi Model School, Dr. Janaki, Gynaecologist, Gandhi Hospital, Dr. Aruna Bala, Consultant medical officer for gracing the occasion. *196 people attended the event and the event was graced by host of other dignitaries. Some of our members presented their case studies. The event marked felicitation of 3 of our treatment champions, 4 of our service providers and dignitaries.*

"Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime."

We believe in the above and on the mark of International Women's day our Chief Guest and the other Guests of Honour handed over 6 cheques, 3 sewing machines to our beneficiaries and provided educational support to 2 students, 2 cheques were provided to two of our support group members when they met with accident. This small support from our end, with the help of donors helped them in a small way.

6. Cheyutha WCBO in NEWS

International Women's day Celebrations coverage by Namaste Telangana.

7. Stories of change

Case study I:

Sony (name changed) born in 2005 lost both her parents to HIV AIDS. She is also HIV Infected. Her father, Mr.Narender died when she was 8 years old and mother Mrs. Andal passed away when she was 11 years. She was then joined to a GURUKUL hostel and she successfully completed her 10th with 'A' grade marks. After her 10th she was sent back home to her uncle's family. She had to stay with them for an year or so due to the pandemic. After an year, her uncle, Mr. Balraj was not able to take care of her due to family pressures, fear of HIV transmission and social stigma. He was looking for a hostel facility for Sony so that her health and education can be taken care of. He had to search a lot for a hostel but couldn't find any, as none of the facilities were ready to enroll her as she was already 17 years old. He had to go through a lot of hardship in finding a place for Sony.

Once when he had visited Osmania Hospital for Sony's ART medicines, he had a general talk with Osmania ART Centre counsellor about Sony's case and the difficulty he is facing in finding a shelter for her. It was then that he was referred to Cheyutha WCBO by Osmania ART Centre Counsellor.

Cheyutha WCBO counseled Mr. Balraj against fear of HIV transmission and social stigma. We also assured him that all the required support for Sony's health and education will be taken care of by Cheyutha WCBO. In spite of the counselling, he refused to take care of Sony due to family pressures. Cheyutha WCBO then approached many hostels and faced the same situation like Mr. Balraj. We, then approached Child Welfare Committee (CWC) with Sony's case. Mr. Raja Reddy, CWC Chairperson, Medchal, Malkajgiri had immediately responded to the plight of Sony and referred her case to ARK hostel.

She has passed Inter 1st year with more than 75% and is now doing her Inter 2nd year CEC. At present, she is healthy and happy at the shelter. Going forward, Cheyutha WCBO will guide her for further education, healthy and a better life. Mr. Balraj had thanked Osmania ART Centre Counsellor, Mr. Raja Reddy, Chairperson, CWC, Medchal, Malkajgiri and Cheyutha WCBO whole heartedly for providing her with better education, health care and a safe home.

Case study II :

Murali (name changed), a 9 year old boy orphan is survived with an elder brother Kumar, 13 yrs old and an elder sister Sujata, 21 years old. They lost their parents to HIV/AIDS. All the 3 children are dependent on their maternal uncle who is a daily wage labourer. It was very difficult for him to make the ends meet. In spite of the all hardship, he took the responsibility of all the children. At the age of 6, Murali fell sick, he would often encountered convulsions. It is during this time he was tested for HIV and found that he is HIV Infected. ART Centre treatment in Niloufer Hospital was started.

They approached Cheyutha WCBO in 2021 when Murali was 8 years old, he weighed 13kgs and measured 49cms in height. His siblings were also under weight. His case was referred by YRG Care, CCF to Cheyutha WCBO. From then on, all the food and medicine expenses of Murali has been borne by Cheyutha WCBO and his family's burden has come down to a certain extent. Grocery support extended by Cheyutha WCBO has been of great help to Murali's uncle's family. The family has also been counseled regarding the care to be taken in terms of food and medicines for Murali.

Currently Murali weighs 16kgs and measures 118 cm in height. Kumar's, elder brother is studying in grade 7 in a Govt school. Cheyutha WCBO is trying to enroll Kumar in a hostel. Sujata is currently at home taking care of Murali as he needs support. Murali's convulsions has forced Sujata not to take up any job. Murali also cannot be sent to school due to his medical condition.

Cheyutha WCBO will keep supporting Murali till he becomes medically fit and will also support Sujata in Job search. Cheyutha WCBO has been handling Murali's case due to the timely support provided by ADP Pvt. Ltd., through CSR Project for Infected/Affected children.

Case study III:

Mrs. Prameela's daughter, Ms. Anitha (Name changed) is HIV positive and diagnosed with a rare virus that affected her throat. She was unable to eat food and became very weak and lost weight. Anitha's husband left her as she is the only one who is HIV positive. Prameela is a sweeper at MMTS, her salary was reduced due to COVID. She requested and pleaded many people and other organizations working on HIV/AIDS for help, but found no support. Seeing her pathetic condition, Mrs. Anuradha treatment buddy from YRG Care, Dr. Preeti, HOD Niloufer Hospital, ART Centre medical officers had referred Anitha's to Cheyutha WCBO. Cheyutha WCBO immediately after seeing her pathetic condition, supported her by buying the medicines worth of Rs. **15,000/-**. She started getting well. She was again referred to Gandhi hospital, COE ART Centre and now she is on second-line treatment and is slowly recovering. She is also enrolled in Cheyutha WCBO clinic as a member and is getting proper medical care. Cheyutha WCBO is also planning to support Anitha's daughter's education.

Case study IV:

Felicitaton to Treatment Champion

Cheyutha WCBO felicitated Ms. Suhana (Name changed) as a treatment champion by Mrs. Nazia, District Manager Accelerate, YRG CARE. She also supported her with a school bag and groceries in order to help her to continue education.

Ms. Suhana lost her father due to HIV/ AIDS. Her mother is HIV positive. Ms. Suhana is also HIV positive and is from a below poverty line family. Her mother was unable to earn as she was not keeping well. It was very hard for them to even have a two-time meal. In spite of all this, Ms. Suhana had continued her studies and she was enrolled under Adolescent Friendly Health Clinic project for Prophylaxis treatment. Cheyutha WCBO had provided her with groceries. At present, she is virally suppressed and she is now ready to tell her peers about the importance of taking ART treatment. Cheyutha WCBO is also planning to support Ms. Suhana's education.

Mrs. Kavitha COO

Unicorpus Polyclinic

Mrs. Jayapradha

ICT Teacher Pallavi Model School

Dr. Sandeep Mora

PhD-Working as technical team leader, Merck

Cheyutha WCBO would like to thank all the Advisory Board Members for their continuous support that has helped change the future of many underprivileged women and children who were being neglected by family members and the society. They have been very generous and kind in accepting our community members and providing timely help as and when required.

9. Board Members

Mrs. S. Kavitha
President

Mrs. A. Kiranmai
Vice-President
